**WYANDOTTE MUNICIPAL SERVICES, WYANDOTTE, WAYNE COUNTY**, for the proposed draft permit for the proposed installation and operation of two new boilers and a combustion turbine with heat recovery steam generator. The facility is located at 2555 Van Alstyne, Wyandotte, Michigan. Additionally, the proposed installation and operation of two new boilers and a combustion turbine with heat recovery steam generator will require revisions to Renewable Operating Permit (ROP) No. MI-ROP-B2132-2010. This public comment period meets the public participation requirements for a future administrative amendment to the ROP. The responsible official for the source is Charlene Hudson, 3200 Biddle Avenue, Suite 200, Wyandotte, Michigan. The New Source Review and ROP public notice documents can be viewed at [www.deq.state.mi.us/aps](http://www.deq.state.mi.us/aps). Written comments will be taken through July 17, 2015. If a public hearing is requested in writing by July 17, 2015, a public hearing will be held July 21, 2015 (see July 21 listing in this calendar). Written comments and/or a request for a hearing should be sent to Cindy Smith, Acting Permit Section Supervisor, Michigan Department of Environmental Quality, Air Quality Division, P.O. Box 30260, Lansing, Michigan 48909. All statements received by July 17, 2015, will be considered by the decision-maker prior to final action. Information Contact: **Catherine Asselin**, Air Quality Division, [asselinc@michigan.gov](mailto:asselinc@michigan.gov) or 517-284-6786. Decision-maker: **Lynn Fiedler**, Air Quality Division Chief.

**JULY 29, 2015**

**PUBLIC HEARING AND DEADLINE FOR PUBLIC COMMENT ON LICENSE RENEWAL, THE DOW CHEMICAL COMPANY, MICHIGAN OPERATIONS, MIDLAND PLANT AND SALZBURG LANDFILL, MIDLAND, MIDLAND COUNTY (MID 000 724 724 AND MID 980 617 435)**. Written comments are being accepted until August 28, 2015, on a draft hazardous waste management facility operating license (License) for The Dow Chemical Company (Dow), Michigan Operations, Midland Plant, 1790 Building, Washington Street, Midland, Michigan and Salzburg Landfill, 2314 West Salzburg Road, Midland, Michigan. Licenses for these two facilities were previously issued separately. The Office of Waste Management and Radiological Protection (OWMRP) proposes to renew the Salzburg Landfill License four years ahead of schedule and merge Dow's two Licenses into a single License with common conditions and attachments, where possible. The License would allow the continued operation of Dow's container storage, tank storage and treatment, surface impoundment treatment/storage/disposal, incineration, post-closure, landfilling, and on-site and off-site corrective action activities. The term of the License renewal is for ten years. In addition, the OWMRP proposes to incorporate Dow's Site-specific Land Disposal Restrictions Treatability Variance into the License as part of the Waste Analysis Plan and to extend the term of the

Variance so that it will run concurrent with the License and be renewed as part of future licensing actions. The Variance currently applies to certain soils generated during corrective action or as a result of upgrade or maintenance of corrective action management systems, including Dow's Revetment Groundwater Interception System. In addition to linking the term of the Variance to the term of the License, non-routinely generated Tertiary Pond Solids would be added as a waste stream subject to the Variance. Due to the proposed extension and revision of the Variance, the merging of Dow's two Licenses, and the overall complexity of this licensing action, a 60-day public comment period is being held instead of a 45-day public comment period. The DEQ has scheduled a public hearing regarding the draft License at the Bullock Creek High School auditorium, 1420 South Badour, Midland, Michigan, at 7:00 p.m. on July 29, 2015. The draft License and Variance documents, including a Fact Sheet that summarizes this relicensing action, are available online at [www.michigan.gov/deq](http://www.michigan.gov/deq) (click on Waste, Hazardous and Liquid Industrial Waste, Hazardous and Liquid Industrial Waste Management, and scroll to "Dow Midland Plant and Salzburg Landfill Hazardous Waste Management Facility Operating License Information" under "Information"). Written comments must be submitted by August 28, 2015, to Cheryl Howe, Department of Environmental Quality, Office of Waste Management and Radiological Protection, P.O. Box 30241, Lansing, Michigan 48909 or via email at [howec@michigan.gov](mailto:howec@michigan.gov). Decision-maker: **Bryce Feighner**, OWMRP Chief. Information Contact: **Cheryl Howe**, OWMRP, 517-284-6561.

### AUGUST 12, 2015

**DEADLINE FOR PUBLIC COMMENTS REGARDING VEOLIA ENERGY GRAND RAPIDS, LLC, GRAND RAPIDS, KENT COUNTY (SRN: B2838)**, for the draft renewal of a Renewable Operating Permit (ROP) for the operation of a district heating and cooling facility. The permit is intended to simplify and clarify the facility's applicable requirements and will not result in any air emission changes at the stationary source. The ROP public notice documents can be viewed on the Web at [www.deq.state.mi.us/aps](http://www.deq.state.mi.us/aps). The responsible official of the stationary source is James Monterusso, 50 Louis Street NW, Suite 500, Grand Rapids, Michigan 49503. Written comments on the draft ROP, or a request to hold a public hearing, are to be submitted to Stephen Lachance, Michigan Department of Environmental Quality, Air Quality Division, Grand Rapids District Office, 350 Ottawa Avenue NW, Unit 10, Grand Rapids, Michigan 49503, or via email to [lachances@michigan.gov](mailto:lachances@michigan.gov) by August 12, 2015. The decision-maker for the permit is Heidi Hollenbach, Grand Rapids District Supervisor. If requested in writing by August 12, 2015, a public hearing may be scheduled. Information Contact: **Stephen Lachance**, Air Quality Division, [lachances@michigan.gov](mailto:lachances@michigan.gov) or 616-356-0239.

### Conferences, Workshops, and Training

**ANNOUNCEMENT** – The DEQ's Office of Environmental Assistance (OEA) now accepts Visa, MasterCard, and Discover for all DEQ/OEA workshop payments!

#### 2015 MONTHLY

**2015 MONTHLY CONSTRUCTION STORM WATER OPERATOR/SOIL EROSION INSPECTOR TRAINING, VARIOUS LOCATIONS, MICHIGAN.** The DEQ Water Resources Division will be hosting training and exams for Certification as a Construction Storm Water Operator. These half-day sessions will include a training video outlining inspector/certified operator requirements, best practices for soil erosion and sedimentation control, and common compliance problems found on construction sites. Not all information on the test is included in the training, so participants are expected to have read and understand the information presented in the "[Certified Storm Water Operator and Soil Erosion and Sedimentation Control Inspector/Comprehensive Manual](#)" chapters 1-5. The training will be followed by a fifty question, multiple choice exam. A score of 70 percent is required to pass and become certified. Complete Training and Exam schedules can be found on the Web at [www.michigan.gov/soilerosion](http://www.michigan.gov/soilerosion) and by clicking on the first link under the training header. **Cost: \$95.** Information Contact: **Sarah Ehinger**, WRD, 269-567-3515, or [ehingers1@michigan.gov](mailto:ehingers1@michigan.gov). To register, determine the training date and location you would like to attend and contact the [district staff person](#) for that location.

**WEBINAR: MICHIGAN RECYCLING ACTIVITY REPORTS - TRAINING FOR MRFS.** The DEQ has created a recycling activities reporting system with the help of Emerge Knowledge, the owners of Re-TRAC. The reporting system will help the DEQ assess the amount of recycling going on in our state as we work toward our 30% statewide recycling goal. The system provides the user an easy to use system for municipal recycling facilities and others to report their recycling activities. To learn how you can become part of this reporting effort and help the DEQ begin to define the amount of recycling that is going on in our state, please register for Michigan Recycling Activity Reports Training Webinar by going to <https://attendee.gotowebinar.com/register/728257495966242305>. **PROTECTING MICHIGAN'S INLAND LAKES: LAKE AND WETLAND PROTECTION TOOLS FOR LOCAL GOVERNMENTS, VARIOUS LOCATIONS, MICHIGAN.** Michigan has 11,000 inland lakes and over 1,850 units of government who share a role in keeping those lakes clean for future generations. Four workshops will be held in Michigan during the summer of 2015 to help local officials and concerned citizens understand the benefits of inland lakes to communities, the regulations that govern them, and the opportunities for enhancing protection at the local level. Topics will include: the importance of inland lakes and wetlands, what you can do at the local level, natural features setbacks, existing legal framework, and how to get started in your community. The workshops are funded in part with an EPA Wetlands Program Development Grant and are hosted by the Van Buren Conservation District with support from the Department of Environmental Quality, Michigan Lake and Stream Associations, Tip of the Mitt Watershed Council, Southwest Michigan Planning Commission, and MSU Extension. ## OCTOBER, 2015

**ENVIRONMENTAL REMEDIATION AND RISK MANAGEMENT CONFERENCE, VARIOUS LOCATIONS, MICHIGAN.** The DEQ Remediation and Redevelopment Division is pleased to announce the upcoming Environmental Remediation and Risk Management Conference, offered in three convenient locations across the state and focusing on the changes to Michigan's regulatory framework in recent years. Case studies highlighting examples of changes in the regulatory framework will be presented by DEQ staff and consultants and/or owners who have worked in partnership to achieve environmental remediation or risk management objectives at sites. This format not only emphasizes how the regulations are applied under real site conditions, it also features the collaborative efforts between the DEQ and parties seeking to develop strategies for managing risks and addressing releases of hazardous substances. Institutional controls, groundwater/surface water interface, and vapor intrusion are just a few of the topics covered on which case studies will be presented. The conference presentations will be beneficial for state and local government agencies; environmental consultants, attorneys, and practitioners; Federal and Tribal agencies; Owners and operators of contaminated properties; and environmental organizations.
